I am a digital citizen of EEB1 and as such, I follow the school's digital code of conduct at all occasions on Teams and on all internet platforms, by...

1. **thinking before I share**
   - I think carefully about what I share and who I share it with
   - I respect other people's privacy when sharing things (have I asked permission to share personal information?)
   - I do not share personal details (mine and the others'), such as name, address, phone number, pictures etc.
   - I consider the consequences on myself and others before sharing anything

2. **spotting the scams**
   - I am wary of phishing attempts and other scams
   - I do not trust everyone online, I know people online are not always who they say they are
   - I do not trust everything online, I cross-check the information and sources therefore

3. **protecting my personal information**
   - I create strong passwords with letters, numbers and symbols
   - I don't write my password and I don't share it
   - Online I keep my identity a secret to avoid unwanted contact

4. **spreading positive vibes only**
   - I remind myself there is a real person behind the screen (e.g. how will my message make someone feel?)
   - I remain polite and positive (e.g. is this something I would say in real life?)
   - I take a break and talk it out in person in conflict situations
   - I push back against hate, discrimination and prejudice of all kinds (racism, xenophobia, homophobia, etc.) and harassment and report it to an adult

5. **speaking out**
   - I do not consent to situations that make me feel uncomfortable
   - I defend victims of malicious or inappropriate behavior online I am the witness of
   - I immediately talk to an adult when in doubt, worried or offended by an online behavior or a suspicious activity
